1	09/06/2020 11:57 AM ID: 142839238	The number of people considering that the measures taken have been exaggerated is increasing. People feel that the restrictions should be removed asap.			
2	09/06/2020 14:20 PM ID: 142839811	The form forced me to tick one box even when I would have answered NO in following cases: Negative/Depressed, Anxious, Frustrated, Determined and Joyful. The other ticks are correct. Life continues: The number of new infections is close to 0 in many areas. Finland took a big step forward normality in 1st of June when the restaurants, museums, theaters etc opened. People are more relaxed also because the summer has come and the weather is good for outdoor gatherings. It's almost difficult to remember social distancing. Close friends and family members don't avoid physical contact any longer. People are recommended to travel in Finland during their summer vacation and support domestic companies.			
3	10/06/2020 08:31 AM ID: 142889688	Having been locked in for 13 weeks with limited external contacts it is difficult to judge the moods beyond the local as this is dependent upon the media and some of these are more positive than others.			
4	10/06/2020 08:45 AM ID: 142889066	-			
5	10/06/2020 12:01 PM ID: 142907560	Generally all happens around elections and covid 19. People are frustrated, angry. It seems that the virus will destroy the economy and most of people are conscious about that.

Reality made of cancelled bookings and in the worst case of not opening of their own business. For ex Anna is not going to open her lido on the beach due to the strict rules. Marila is depressed because she was going to open her agriturismo for the first time this year but she has only one reservation. Pasquale has some problem selling his beer because many restaurants are not opening. Despite everything we are considering ourselves lucky.

2	09/06/2020 14:20 PM ID: 142839811	We hope we can continue with our normal activities in August and September, but there is a risk of second wave of the epidemia. Therefore we are prepared for continuing distance work and online activities in autumn. The epidemic situation after summer affects also our project plans and activities. There are many open questions: When are we allowed to travel abroad? When and where are we going to have our next LTTA? Is the cancelled LTTA (UK, March 2020) moved to future or cancelled? Will the next LTTA be in Finland as planned?
