3. What do you (personally or as a group) understand by the term 'Best Practice'? Please give two examples

			Response Percent	Response Total
1	Open-Ended Question		100.00%	7
1	06/09/2020 23:13 PM ID: 147674719	Compliance to regulation Striving for excellence		
2	08/09/2020 11:55 AM ID: 147833077	Best practice is a recommendation, how to implement some activities and to reach good results. For instance, best practice in our library is to organize meetings for families on Saturdays, to combine during ir different activities: educations, games for children and psychology lectures for parents. Best practice in organising trainings is to combine theoretical part with practical part.		
3	09/09/2020 07:43 AM ID: 147913954	An example of a work/action/procedure that achieved good results and was already verified/experimented/implemented by groups (organisations) or individuals. It is the first way we - as human beings - learn: child follows the 'best practice' of adults around and tries to imitate/replicate/procedure in the same way. I would argue on the term 'best' which may be not accurate (rarely it's really the best practice) and even too high, too demanding. Maybe 'good practices', 'effective practices', 'smart practices' or 'creative practices' would be more appropriate in describing such examples. Best practice may also include examples/illustrations/ideas that offer insight into solutions for various given situations. It is worthy to note that a 'best practice' may or may not work for all contexts/particularities so it's contextual and rather subjective.		
4	10/09/2020 12:25 PM ID: 148003144	The same as the definition given by Google: commercial or professional procedures that are accepted or prescribed as being correct or most effective. - a new teaching method best practice - a well implemented green track		
5	11/09/2020 11:55 AM ID: 148054866	We think that the best practice for a project has to have a Well understanding of it, an analysts of budgets, times, resources. An other best practice is to plan updating meeting scheduled in a regular way in order to keep all partners allined to the project.		
6	15/09/2020 07:29 AM ID: 148225092	Developing, integrating and sharing new approaches, methods and methodology in this particular case in the field of adult education. 1) Multipliable (transnational) course curricula 2) Professional development for staff in line with individual needs of learners and organisational objectives		
7	15/09/2020 13:13 PM ID: 148255419	We do not know if we have to consider a best practice in this project or generally best practice? Best practice is a good example of something that was implemented or tested or approved and it has a satisfying result and impact and it can be an educational path in the natural park with some information about the palce: Meteorits reserve Path in the trees, a bridge in trees

4. What do you understand by the term 'protocol'? Please give an example			
			Response Percent
			Response Total
1	Open-Ended Question		100.00%
	1	06/09/2020 23:13 PM ID: 147674719	Rules, processes, procedure. Shared understanding
	2	08/09/2020 11:55 AM ID: 147833077	Protocol is rules that you have to follow in certain occasions, for instance in official meeting with embassy you have to raise a flag, meet ambassador at the entrance, ect.
	3	09/09/2020 07:43 AM ID: 147913954	<p>A set of rules? A standard procedure to follow for a particular context? A template? I am thinking at this as the language we use. If two people use the same language than they can communicate effectively. So, English is a very important protocol in the project and we all should ensure that it is well understood by all partners in order to communicate effectively. Natives should always consider extra crosscheck of this aspect.</p> <p>The term proposed is too general to relate it with something specific so more clarification on this aspect is needed.</p>
	4	10/09/2020 12:25 PM ID: 148003144	Everything needed to implement an activity.
	5	11/09/2020 11:55 AM ID: 148054866	A protocol is a standard set of rules and guidelines that allow entities to communicate, to make an agreement or to define actions.
	6	15/09/2020 07:29 AM ID: 148225092	I this case we would see that the term protocol refers to carrying out all project activities with good management practise and ensuring health & safety, safeguarding & data protection.
	7	15/09/2020 13:13 PM ID: 148255419	<p>a system of procedures, for example a diplomatic protocol</p> <p>a protocol could be a document</p>
