

A Winter Programme

".... the missing LTTAs are a huge loss for the project.

This project is very hands on, very practical and based on human interaction....

and particularly interaction between nature and people.

In this light, sitting at the computer with limited means of communication does by no means add to the European added value as it was planned in the project plan."

December – March 2021 Outline programme

Four Elements

- Creating
- Consolidating
- Cooperating
- Sharing

Creating

Requirement

- 1. Imaginative & inventive responses
- 2. Based on the project environmental framework
- 3. Addressing a specific project aim or issue

All activities to

- Be agreed partnership actions
- Assist in consolidating the partnership
- Have a shared & publicised result

Consolidating:
